Forecast for Tuesday 11 Apr 2023

Weather: Clear then sunny intervals, and one or two isolated showers falling as snow above 700m. Cloud thickening to bring rain and summit sleet to the Ochils around late afternoon or early evening then extending north into the Southeast Highlands during the evening, where the snow level will be nearer 500m, with blizzards eventually developing at higher elevations in the strengthening east or southeasterly gales.

Chance of cloud-free hill tops above 800m: 75% early hours into the morning rising 90% by afternoon, then falling quickly to 20% or less in the evening.

Low Cloud and visibility: Patchy cloud to 750m in west early hours and into the morning becoming patchy above summits in afternoon, then widespread cloud then developing at 750m with patches to 600m during the evening, with poor visibility at lower levels in heavier rain, very poor in snow and summit blizzards.
